Made Just For You

With 25 color finishes, 3 stains and a myriad of custom options, each piece can be custom made to suit any style.

Proudly Made in the USA

We do not believe in cutting corners; we make all our furniture in the USA with the highest quality materials and craftsmanship.

Ricki Bed

A Bed for Every Room

Upholstered panels can be customized to suit your vision. From twin size to king size, our beds are crafted with the finest materials for kids of all ages.

For the Future

All of our color finishes and stains are safe for your child. Our low-VOC finishes also leave a minimal impact on our environment.

Ricki Crib

Safe and Sound

Our products are made with your child's safety in mind. Our cribs meet or exceed all current federal safety standards.

Incomparable Quality

All our furniture pieces are benchmade from select hardwoods. Quality craftsmanship and traditional woodworking techniques are implemented, such as mortise & tenon joinery, rail & stile construction, as well as inlaid raised panels. In an era of mass production, imports and computerized machinery, this is an art form seldom used by most furniture manufacturers.

Committed to Safety

Our cribs have been tested by independent laboratories for compliance with all current standards and have passed rigorous testing. Every crib meets or exceeds the latest CPSC and ASTM standards to ensure the safest possible products.

Made in the USA

Sweet Green Dreams

Superior quality furniture will last for generations, creating a sustainable product. Low grade furniture will likely end up in a landfill after a few years. You will want to pass down Newport Cottages® furniture as a cherished heirloom and create lasting memories.

A Breath of Fresh Air

Our low VOC (volatile organic compounds) finishes promote a healthy environment in your nursery. Our non-toxic paints have been tested for over 100 different harmful substances such as lead, mercury, arsenic and other toxins.
